REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

References Walker et al (4,881,245), Jasper et al (5,140,615), Hess et al (5,170,413), Jasper et al (5,519,730), Hyll (6,005,893), Ohta et al (6,026,129), Serfaty (GB 2 271 693 A), and Yeap et al (WO 98/09383) are cited because they are pertinent to the method and apparatus for dynamically allocating channel bandwidth in multicarrier system. However, none of the cited references teaches or suggests, in combination, the arrangements of the method steps of transmitting independent communication signals when broad pre-defined channels are available and when only narrow pre-defined channels are available and the relationships between the pre-defined offsets from the center frequency of the narrow pre-defined channels and broad pre-defined channel in order to form a method of accommodating pre-defined channels of differing bandwidth without substantial retrofitting of communication system components as recited in claim 30 and the corresponding apparatus claim 38 and further limitations of their respective dependent claims 31-37 and 39-47.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
